## WHY THIS CATEGORY — WHY NOW

Trading cards are one of retail's hottest everyday categories — and Pokémon leads it. The people buying are already walking through your doors.

Collectible trading cards have grown into a mainstream, all-ages hobby: kids and teens buy on impulse, parents buy treats and gifts, and a fast-growing community of adult collectors buys regularly. **Pokémon sits at the center of it all** — the single most recognized name in the category, and the reason first-time buyers walk up to the machine. It's fun, social, and it sells quickly wherever it's placed — exactly the impulse purchase a bright, well-placed machine captures while guests are already in a treat-yourself mindset.

## AUTHENTIC POKÉMON — TWO WAYS TO PULL

Every Card Stop is stocked with genuine product: **authentic Pokémon cards and factory-sealed Pokémon booster packs**. It offers two card-only mystery pulls — guests pick a slot, the machine does the rest.

### MYSTERY BOOSTER PACKS • \$27

#### Pick a slot, pull a pack

The machine dispenses a **factory-sealed Pokémon booster pack** at random, cased in a protective top-loader — one flat \$27 price, no choosing the exact pack. Select slots hold premium or higher-rarity packs. Every pack is genuine and sealed.

**Flat \$27 per pull • every slot, one price**

### MYSTERY SINGLES • \$1

#### Pick a slot, pull a single

For just \$1, pull a **random authentic Pokémon single**, cased and sleeved (some holo or special) — you can't choose the exact card. Select slots include a **graded chase card** as the standout prize. Every pull delivers a real, genuine card.

**Flat \$1 per pull • every slot, one price**

Both mystery pulls are **100% authentic product at fair, flat, posted prices** — \$27 a pack, \$1 a single, offered together in every machine. A transparent, trustworthy experience that reflects well on your venue: singles come cased and sleeved with a **tamper-evident authenticity seal**, and packs are always factory-sealed in their case.

#### 100% Authentic Pokémon

## HOW TO PLAY — CARD ONLY

Simple, cashless, and card-only. Two ways to pull, one easy flow — no cash, no app, no account.

### Mystery Booster Packs

\$27

- 1 **Tap or insert your card.** Card-only, cashless checkout on the 43" touchscreen.
- 2 **Pick a slot.** Every slot is one flat \$27 price — the pack inside is a mystery.
- 3 **A cased mystery Pokémon pack drops** to the tray, factory-sealed in a protective top-loader.
- 4 **Chance at a rare pull.** Select slots hold premium or higher-rarity Pokémon packs.

### Mystery Singles

\$1

- 1 **Tap or insert your card.** Same fast, card-only checkout.
- 2 **Pick a slot.** Every slot is one flat \$1 price — the card inside is a surprise.
- 3 **A cased mystery Pokémon single drops** to the tray, sleeved and protected.
- 4 **Chance at the chase.** Select slots include an authentic **graded chase card**.

**About the odds & the chase.** Select slots include premium packs and graded chase cards; the exact odds vary by load, are limited, and are posted at the machine. No purchase guarantees a specific card. To keep anything high-value out of an unattended machine, a graded chase card is **held securely and awarded through a simple verified claim** — so nothing high-value sits in your venue. Every pull, chase or not, delivers a genuine, authentic Pokémon item at the flat, posted price.

Card-only, cashless: The Card Stop accepts contactless tap and inserted cards. It does not take cash, which keeps your venue free of cash handling and reconciliation.

### What are the benefits of hosting?

A 10% share of every sale, more foot traffic and dwell time, and a fun, modern draw — all with zero cost, setup, or effort on your part.
